**Assignment Descriptions:**

**Assignment 1: Business Press Synthesis Presentation and Web Publication**

This group assignment is designed to give you experience reading, analyzing, and discussing material from the business press. It provides an opportunity to practice working in small groups and to develop professional speaking skills. It also allows you to practice rhetorical awareness by communicating about a single topic to different audiences using different mediums. There will be a draft and final version.

**Assignment 2: Employment Package (Résumé, Cover Letter, & Job Posting with Analysis)**

This individual assignment will teach you to critically read job/internship descriptions and demonstrate a fit with a particular position. It provides an opportunity to create an effective resume that is tailored to your career field and industry and an effective cover letter that is tailored to a specific position.

**Assignment 3: Informational Interview Report**

An informational interview is a meeting with a working professional who can give you an inside view of an occupation, organization, and/or industry that is of interest to you. For this individual assignment you will identify an appropriate interviewee; research their industry; schedule an interview; build a list of appropriate questions; conduct an in-person interview and take notes; send a thank you note; and write a reflective report about what you learned and how it applies to your professional future.

**Assignment 4: Training Proposal and Annotated Bibliography**

For this group assignment you will develop a well-researched and engaging training program and write a training proposal. The goal is to show that you know a great deal about the training topic and that you can deliver a valuable training experience for a specific group of a selected company’s employees. The proposal should be persuasive and include an annotated bibliography showing the research you’ve done and the sources you’ve found.

**Assignment 5: Professional Training Presentation**

This group assignment requires you to deliver the training you wrote about in your persuasive proposal (Assignment 4). You will prepare an instructive and interactive 15-minute training workshop for the audience you identified in the proposal. You will deliver the training to your classmates, who will act as your target audience. The goal is to provide an engaging training experience that enhances your audience’s knowledge of the topic.
Assignment 6: Reflection and Projection
This individual assignment gives you the opportunity to both reflect on what you’ve learned this semester and project forward to envision your future self.

All major assignments will be graded on a 100 point scale.

Grading Scale: Note that final grades will NOT be rounded up—please don’t ask.

A larger screen is recommended for better visibility of course material. You will need speakers or headphones to hear recorded content and a headset with a microphone is recommended for the best experience. For the amount of Hard Disk Space required taking a distance education course, consider and allow for: the storage amount needed to install any additional software and space to store work that you will do for the course.

**Software** – This course uses Blackboard as the learning management system. You will need a browser and operating system that are listed compatible or certified with the Blackboard version available on the myMason Portal. Log in to myMason to access your registered courses. You can set up a Mac computer with Boot Camp or virtualization software so Windows will also run on it. Computers running Linux can also be configured with virtualization software or configured to dual boot with Windows.

Note: If you are using an employer-provided computer or corporate office for class attendance, please verify with your systems administrators that you will be able to install the necessary applications and that system or corporate firewalls do not block access to any sites or media types.
