Course Textbook: There is a custom book that students can buy in the bookstore. If the text is purchased from the bookstore, an additional package with the online component called Connect, will have to be purchased from the publisher. The package offers the ebook, the online homework, online quizzes and other valuable online tools. The chapters come from the textbook, *Financial and Managerial Accounting, 5th ed.*, Wild, Shaw, Chiappetta, McGraw-Hill Irwin (Hardback or loose leaf version.) Used books can be utilized. The Connect link is found in Blackboard for the class. In blackboard under course management, find course tools. In course tools will be a McGraw Hill Higher Education link. When in the link, find the Connect pairing link. When in Connect, register for the online package. At the end of the registration will be three options: use a code (unavailable), use your credit card or use the Courtesy Access. The Courtesy Access will let you use the entire package including the ebook, online homework and quizzes for free for fourteen days. Work completed while using the Courtesy Access will transfer over. In order for this work to count, the online package needs to be purchased.
Online Homework and Online Quizzes
The textbook has an online learning system. It is called Connect. After entering the Connect website, each student needs a Code to log on to do the homework and quiz. The Code comes with each new textbook. If the student buys a used textbook, then the Code needs to be purchased. McGraw-Hill Irwin permits users to try the system free for a short time. Other information concerning Connect is also on Blackboard. Go to the McGraw Hill Education tab under Course Tools. Details about Connect will be presented on the first class date and reviewed in the recitation. Online quizzes and homework are located on Connect. Build in some time in case you have internet connection problems. The clock cannot be stopped when taking the quizzes. Pushing the SAVE button does not stop the clock.

Before contacting the instructor regarding connect issues, you should do the following:
1. if experiencing difficulty in Connect, please troubleshoot with your browser
2. If you are still having issues (either with accessing an assignment or an error within a question), you MUST contact CARE Technical Support: www.mcgrawhillconnect.com/support or 1-800-331-5094
3. After you have received a CARE number, if you still have an issue, you may email your question to me (the instructor). Grading errors will be corrected at the end of the semester.

Examinations
You will need a Scantron for all exams. You may use a basic, non-programmable, calculator. TI-83 and similar calculators are NOT permitted. Cellphones or Internet accessible instruments are not permitted during tests. Students are not permitted to share calculators during the test. Students found using any of these will be in violation of the honor code, and will receive a 0. Scantrons can only have name, subject, version, class, lab number and date written on it.

Make-ups
You are expected to be present for all examinations. If a last minute emergency arises that will prevent you from taking an examination, get in touch with me as soon as possible (send an email or call). Unexcused exams count as a zero. If the absence is excused, the next test will count for twice as much. If test three is missed, the final exam will count 50%. The final exam may include written journal entries if the test missed included journal entries.

Study Groups and E-mails
Each student needs to form a study group of two to three students. If a student misses class, then the student should contact a person in the study group to find out what was covered in class. It is each student’s responsibility to find out what was covered in each class. E-mails should not be sent to the Instructor requesting this information. The necessary information should come from the study group and/or the class website site. Unless an emergency arises which causes a student to miss a large number of classes, do not e-mail the instructor about absences. Contact your study group to gather necessary information.

Attendance
To maximize your learning experience, attendance is essential. The chapter should be read before attending the lecture. Lab homework should be completed before attending the lab/recitation.

Homework
It is extremely important to keep up to date and be prepared for class and lab.
