Mason Impact Distinction
This course is designated as one of the Mason Impact courses, as part of George Mason’s Undergraduate Education Program, preparing “students to tackle significant global questions and challenges by investigating meaningful questions, engaging multiple perspectives, and creating new knowledge within the context of Undergraduate Research and Creative Activity, Civic Engagement, Entrepreneurship, and Global Activities.”

More specifically, BUS 103: Developing Your Professional Skills – Foundational Elements, encourages students to be introspective, discern their professional identity, and explore how to use their knowledge, skills, and values to engage with and impact the broader professional world. For one of the main assignments – Business Functions paper and formal presentation – students work in teams to investigate one of the core business functions (accounting, finance, marketing, management, or IT), explore the opportunities in that function, and teach their peers about that particular function. BUS 103 students also complete a professional development plan, in which they articulate professional goals, identify knowledge and skill gaps, explore how their values affect their pursuits, identify a specific plan for developing their skills/knowledge. The course culminates with students sharing these plans with their peers and discussing how they will implement the plan so they can capitalize on their talents and have an impact in the broader world.

In accordance with University Policy 1415, all faculty, staff, students, guests, vendors, and visitors must wear face coverings on campus and in university buildings including during class. Students without masks will be asked to leave the classroom and may return once they are wearing a mask.

All students taking courses with a face-to-face component are required to take Safe Return to Campus Training prior to visiting campus. Training is available in Blackboard (https://mymason.gmu.edu). Students are required to follow the university’s public health and safety precautions and procedures outlined on the university Safe Return to Campus webpage (www2.gmu.edu/safe-return-plan).

Similarly, all students in face to face and hybrid courses must also complete the Mason COVID Health Check daily, seven days a week. Only students who receive a “green” notification are permitted to attend courses with a face-to-face component. School of Business Standards of Behavior
The mission of the School of Business at George Mason University is to create and deliver high-quality educational programs and research. Students, faculty, staff, and alumni who participate in these educational programs contribute to the well being of society. High-quality educational programs require an environment of trust and mutual respect, free expression and inquiry, and a commitment to truth, excellence, and lifelong learning.

Integrity is an essential ingredient of a successful learning community. Ethical standards of behavior help promote a safe and productive community environment, and ensure every member the opportunity to pursue excellence. The School of Business can and should be a living model of these behavioral standards. To this end, community members have a personal responsibility to integrate these standards into every aspect of their experience at the School of Business. Through our personal commitment to these Community Standards of Behavior, we can create an environment in which all can achieve their full potential.

Students, program participants, faculty, staff, and alumni accept these principles when they join the School of Business community. In doing so, they agree to abide by the following standards of behavior:

- Respect for the rights, differences, and dignity of others
- Honesty and integrity in dealing with all members of the community
- Accountability for personal behavior

If these Standards of Behavior are violated, then students may be required to complete additional learning activities assigned by the instructor.

Commitment to Inclusion and Anti-Racism
As a member of the George Mason University community, the School of Business plays an integral role in building an educational environment that is committed to anti-racism and inclusive excellence. An anti-racist approach to higher education acknowledges the ways that individual, interpersonal, institutional, and structural manifestations of racism against Black individuals and other people of color contribute to inequality and injustice in our classrooms, on our campuses, and in our communities, and it strives to provide our community members with resources to interrupt cycles of racism so as to cultivate a more equitable, inclusive, and just environment for all of our students, staff, faculty, alumni, and friends, regardless of racial background.

BUS 103: Developing Your Professional Skills – Foundational Elements
To be anti-racist means:

• To make constant, conscious decisions to interrupt racism and cultivate equity, inclusion, and justice for people of all racial backgrounds, and in particular those from Black communities and other communities of color, who are most likely to bear the direct and indirect costs of systems of white supremacy;
• To interrogate histories of white supremacy and white-dominant culture, and to examine the ways in which these histories have impacted our individual beliefs, our interpersonal relationships, our institutional and structural policies and processes, and our entire society;
• To make a commitment to being responsible for our own relationships to, and actions within, systems of white supremacy; and
• To cultivate a practice of self-awareness and self-reflection that allows us to critically evaluate our own role in upholding white supremacy and identify the ways we can interrupt cycles of racism at the individual, interpersonal, institutional, and structural levels.

We believe that the work of anti-racism starts with each individual, and that in cultivating an anti-racist approach to research, scholarship, and practice, our students will build a skillset rooted in principles of equity, inclusion, and justice that they will carry with them throughout their lives. (Commitment statement prepared by Dr. Charles Chavis, Assistant Professor in the Jimmy and Rosalyn Carter School of Peace and Conflict Resolution.)

University rules preclude instructors from communicating with students through private email addresses; use your Mason email address for all course communication.

Peer Reviews, Collaborative Writing, and Group Work:
Students will engage in frequent small-group activities during class time. During peer reviews, other students may be asked to read, review, and respond to your work. In addition, you will have the opportunity to evaluate the work of others. This component of the class mirrors professional workplace situations that require giving and receiving feedback, and these evaluations will count toward your individual grade. For students who do not contribute sufficiently to their group assignment, instructors have the discretion to reduce their grades accordingly.

- Team Projects:
  This course also makes use of team projects, mirroring the business world. There are various roles needed to have a successful team. Students who are obviously unprepared or unfamiliar with content during presentations will have their grades reduced. Otherwise, all team members receive the same grade on team assignments.

- Unprofessional Behavior in Groups:

BUS 103: Developing Your Professional Skills – Foundational Elements
Students who do not contribute sufficiently to their team’s effort or behave/communicate in ways that hinder function may have their grades reduced accordingly. An example of this is “ghosting”. Teams that have difficulty completing a task, making decisions, or communicating will not be penalized if they raise concerns in a timely and professional manner. When/if there is a problem within your team, please be proactive in your communication, review the agreed upon expectations, and try to reach a solution. As needed, the instructor is available to talk with individuals and/or the team to help problem solve.

Religious Absences
If you will miss class for religious reasons, inform the instructor of the anticipated absence as soon as possible.
